To: City of Seattle employees who are working at downtown offices during the COVID-19 crisis

Re: Reduced parking costs at SMT, SeaPark, and Republic Parking Northwest lots

City of Seattle employees that need to come to work during the COVID-19 crisis and are driving their own vehicles to the downtown offices can park in the Seattle Municipal Tower (SMT) parking lot and the SeaPark lot for \$7/day.

Republic Parking Northwest has reduced their daily 10-hour rate from \$28.00 to \$12.00, effective Monday 3-23-2020, to help mitigate costs to City of Seattle workers who need to work at downtown offices. This is for the two Republic Parking Northwest lots under Interstate 5, at James & Cherry, between 6th and 7th Avenues. The special will be offered all day (not just early bird). No advanced payment for monthly parking will be required — you pay when you park. The meters at this lot take credit or debit cards only - no cash. The overhead signs will not be changed, but the only rate that the meter will offer and charge will be \$12.00.
